

CCSW 437 – User Experience (Fall 2022)
Design Project Phase 1

1. Project Group Members:

1. Suhaila Hawsawi
2. Layan Eid
3. Laila Alzahrani
4. Nada Abdulmanea

2. Project Title: Usability Testing of:

- A mobile Application

3. Website/Application Name:

- Mobily Application

4. Why did you choose to do the usability testing on this website/app? what tasks are you going to test? What are the user experience factors you try to consider?

4.1. Why did you choose it?

We selected this specific application for improvement due to the presence of several usability issues that hinder its overall user experience. These issues span across various aspects, including:

Readability, Accessibility, Clarity, Consistency, Professionalism, and Learnability By handling these critical issues, we aim to enhance the application's usability and overall user experience significantly. By making the application more readable, accessible, clear, consistent, professional, and easy to learn, we believe we can empower users to interact with the

application more effectively and efficiently, ultimately achieving their desired goals with greater ease.

4.2. What tasks are you going to test?

- Navigation process within the app.
- Information accessibility and organisation within the app.
- The purpose of the store's page for purchasing products and the line recharger for recharging lines.
- Informal language within the app.

4.3. What are the user experience factors?

- Accessible, the font and text size can be hard to read.
- Findable, the navigation and task flow can be confusing.
- Usable, reaching a specific task can be hard and frustrating.
- Desirable, colors and designs can be overwhelming.

5. Application Main Features:

- Payments and Recharges Made Easy - Pay your bills and recharge easily using a variety of debit and credit cards through our smart and secure app.
- Shopping on Demand - Get the latest smartphone, new line, sim, or fiber delivered right to you.
- Simple Subscriptions - Find the best and latest offers on packages, services, and add-ons and quickly subscribe or unsubscribe with one click.
- Delightfully Helpful Support - Talk to a real human through our social media support channels and sit back and relax while we take care of all your communication needs.
- All Your Lines in One Place - Manage all your numbers under one account simply and securely.

6. Who are the users of the website/application (What type of participants do you need?):

Ahmed Alharthi

AGE	30
SEX	Male
EDUCATION	Masters in Business
STATUS	Married
OCCUPATION	supply chain management
LOCATION	Jeddah
TECH LITERATE	average

“ I prefer separating my work life from my personal life, and keep a balance between both.

Comfort-seeker

Bio

He currently lives in Jeddah. He is a supply chains manager. He is currently married and like to go out with friends on long holidays. He goes to work early and comes home for dinner at the end of the day, browses the internet and responds to any messages from friends and family, then goes to sleep. On weekends he makes plans with friends via phone calls and chat messages.

Core needs

- Easy access to information about plans, promotions, and support.
- Clear and intuitive navigation.
- Clear distinction between store page and line recharger features.

Frustrations

- Has difficulty finding specific information within the app pertaining to managing multiple phone numbers.
- Feels frustrated by the misleading connection between the store and line recharger.
- Gets confused by the unclear navigation and process flow.
- Feels the informal language makes the app unprofessional and confusing.
